

THE CENTRAL RECORD.

THIRTY SECOND YEAR

LANCASTER, KY., THURSDAY AFTERNOON, DECEMBER 8, 1921.

NUMBER 35.

CHRISTMAS GOODS

Lancaster Merchants Have A Large Selection.

Practically every show window is filled with Christmas gifts, and the merchants are looking forward to one of the largest Christmas sales ever known before. The Dry Goods stores have everything for the ladies while the gent's furnishings store are filled likewise for the men. The Jewelry and Drug Stores have their usual large line of jewelry, cut glass, fancy china and toys. The Hardware merchants show a large line of gifts and the grocerymen are decorating their windows with fruits, candies and cakes.

We call your attention to the many ads in this week's Record offering many useful Christmas suggestions.

Memorial

In loving remembrance of Mrs. Mary Agnes Broadus, born Aug. 17th, 1844; died Nov. 30th, 1921, at 1:45 P. M.

Her going away was as peaceful as the sunset on a summer's eve.

Mrs. Broadus was a daughter of Thomas Woolfolk and Margaret Henderson Woolfolk; the wife of Mr. T. L. Broadus, who preceded her, nine years ago.

To this union were given two children, Mrs. Will Lear, and a little son, who died in infancy.

Mrs. Broadus leaves to mourn her loss, besides her daughter, two sisters, and a half brother: Mrs. Robert Gullet, of this county, Mrs. Jane Murphy, of Lexington and John Woolfolk, of Lexington.

The two grand-daughters, Mrs. W. R. Bastin and Mrs. R. C. Rose were as near and dear to her as her very own, as well as the two little great-grand children, Willie Alene and James Lear.

Mrs. Broadus united with the Christian church in early life and lived a consistent member, always emulating the teachings of her Master, by her service in doing good to all with whom she came in contact.

She walked in the old paths, and the progressive new of the day had no charms for her.

She loved her home and her friends with a devotion too deep for expression.

Her great heart was ever sympathizing with not only friends, but strangers in sickness or trouble.

She created by her genial spirit the true Southern hospitality that characterized her home. She counted nothing too much to do for the friends and relatives who come to see her.

Her hands were untiring in loving service, not only in the home circle, but many are the sick-rooms that have been cheered by packages of home-made bread, chickens, etc., she took so much pleasure in sending.

A more unselfish life could not be lived.

No deceit lurked in her heart, she was free from guile; pure and gentle in her nature, ever standing for right against the wrong, she has played the part of a real "Soldier of the Cross" in the great drama of life. Her every thought was for others. No more fitting tribute could be paid her than to say, "She hath done what she could," in all things, but especially did she live up to the standard of the following lines:

Lord help me live from day to day
In such a self-forgetful way
That even when I kneel to pray,
My prayer shall be for—Others.

Help me in the work I do,
To ever be sincere and true,
And know that all I'd do for you,
Must needs be done for—Others.

Let "self" be crucified and slain,
And buried deep. And all in vain
May efforts be to rise again,
Unless to live for—Others.

And when my work on earth is done,
And my new work in heaven's begun,
May I forget the crown I've won
While thinking still of—Others.

Goose Supper Tonight.

The Masonic Lodge of this city will have a goose supper tonight. Cards have been received by all Masons inviting them to be present. The supper will be served by the Eastern Stars of the Masonic lodge in the lobby of the Court House.

Stop, think! What will 25 and 50 cents buy? Yet it will give a poor Abolition bread and life for one to five days.

Disabled Garrard County Service Men.

The American Legion of the Heidal Sanford Post No. 35 will have Mr. Stonewall Norman of the Red Cross Chapter, of Richmond, here on Saturday, December 10th, from 8 A. M. to 4:00 P. M., for the purpose of filling out all claims for the disabled service men of Garrard county.

Mr. Norman will be at the Chamber of Commerce headquarters, over the Puritan, at the above time and date.

Every disabled service man is cordially invited to call on Mr. Norman and interview him on any subject pertaining to his disability received while in service.

The American Legion is strictly a SOLDIERS' ORGANIZATION and awards will be found to be of service to the Ex-Service men.

Do not let this opportunity pass.

Run Down By Auto.

Mr. Sam Haselden, of Bryantsville, had the misfortune of being run down by an auto driven by a Mr. Caldwell, of Danville, on last Thursday night. Mr. Haselden had started across the street from his store when the car came up, Mr. Haselden stopping and also Mr. Caldwell, and in about the same breath Mr. Haselden started across, thinking that Mr. Caldwell was stopping for him and Mr. Caldwell thinking the same, the result was that the car struck Mr. Haselden, knocking him down and rendering him unconscious. He was removed immediately to the residence of his son, Mr. J. R. Haselden, on Hill Court, and is resting easy. Mr. Haselden's many friends wish for his speedy recovery.

Mrs. W. J. Romans

Improving.

The many friends of Mrs. W. J. Romans will be glad to learn that she is rapidly regaining her health, after a very serious operation that was performed in Danville recently.

Charity Game

Quite a number from here will attend the Charity game of foot ball on Cheek Field in Danville tomorrow, (Friday) afternoon. This will be the last time our local people will have the chance to see the great "wonder team" in action. The game is given for the benefit of the Kentucky Children's Orphan Home Society and a charge of \$1.00 to all will be made, with no seats reserved.

Dollar Day Sales

A Success.

The dollar day sales that was inaugurated by the merchants of the city belonging to the Lancaster and Garrard County Chamber of Commerce was a decided success.

This sale was held for one day only and the people had a chance of buying five dollars worth of merchandise and getting one dollar worth of merchandise free.

Knight Inspection

The Annual Inspection of Ryan Commandery will be held on Thursday evening, December 8th, at Danville, Ky. An elaborate dinner will be served in the dining room on the fourth floor of the Masonic Building, at 7 P. M. It is hoped that every member will attend, and urge that those having uniforms, please wear them.

W. H. Carter, Recorder.

"Springtime"

The new musical comedy, De Luxe, clean, dainty and fascinating, will be staged in Danville, Dec. 14th and 15th, by a professional director, who represents the John B. Rogers Producing Co. 250 local people take part. Scenery and costumes, furnished by producers and designed by one of New York's talented scenic designers are said to be the last word, both in splendor and beauty. Be sure to see this "Musical extravaganza"—greatest event ever staged in a town the size of Danville. Admission, 75c, and \$1.00.

Notice.

All persons who will apply for positions under city, beginning Jan. 1st, 1922, will please file their applications on or before Dec. 10th, with W. F. Champ.

Methodist Church Notes

There will be the regular services at the Methodist church next Sunday. The Sunday morning services will be followed by the Sacramental service.

Preaching Sunday evening by C. L. Bohon, P. E., of the Danville District and this service will be followed by the Quarterly Conference. A full attendance of the membership at both services is desired. The Sunday School and Epworth League need you, and you need the spiritual uplift to be derived from them. Come to all of the services Sunday, and you will receive a hearty hand shake and a welcome that will make you feel like coming again. Some have been making regular visits to their relatives, make a visit to the old home church, and see if you will not feel better on blue Monday. God has greatly blessed you in many ways, so show your appreciation by attending the church services regularly.

Baptist Church News.

The B. Y. P. U. entertained their friends, young, old and middle aged at the pastor's home on Tuesday evening. About sixty were in attendance and all were in the spirit of sociability. There were several visitors present from neighboring Baptist Unions, who contributed by their presence the pleasure of the occasion. Lively games, vocal music and delicious refreshments combined to make the evening enjoyable in every particular.

Mr. Eugene Thompson, the newly elected President of the Association at B. Y. P. U. of South District, will be present at the young people's service next Sunday evening, and will also preach at the evening hour of service. His message will deal with the relation of the young people to the work of the church. A cordial invitation is extended to all to attend this service.

Paul's first letter to the Corinthians is being studied at our mid-week prayer services with increasing interest and attendance. Our goal is fifty in attendance each week to study the Bible. Have you signed?

The topic for the next Sunday morning's sermon will be "The Believer's Security in Christ." Every member is urged to be present and visitors are always welcome.

Preston-East.

Miss Christine Preston and Mr. Barney East were married Nov. 23rd, at Lancaster, by Rev. E. B. Bourland.

The bride is 19 years of age, and is the beautiful and accomplished daughter of Mr. and Mrs. R. H. Preston, while the groom is the 22 year old son of Mrs. Lucy East, and is a young farmer of sterling worth.

Mr. East is to be congratulated on winning the hand of this beautiful young lady for a help-mate. They have the best wishes of their many friends for a long life of happiness and prosperity.

Peace-Clark

What came as a surprise to their many relatives and friends was the marriage of Miss Lou Della Peace and Mr. Simmie Clark on last Wednesday evening. They were married by Rev. Price Smith, of this city.

Miss Peace is the oldest daughter of Mr. and Mrs. J. S. Peace, of this city, and is one of Lancaster's accomplished young ladies.

Mr. Clark is the youngest son of Mr. Sim Clark, near Judson, and is one of Garrard's most popular young farmers.

Their many friends wish them a long life, and much happiness on the sea of matrimony.

The President Of The United States On Prohibition.

"In every community men and women have had an opportunity now to know what Prohibition means. They know that debts are more promptly paid, that men take home the wages that once were wasted in saloons; that families are clothed and fed, and more money finds its way into the savings banks. The liquor traffic was destructive of much that was most precious in American life. In the face of so much evidence on that point what conscientious man would want to let his own selfish desires influence him to vote to bring it back? In another generation I believe that liquor will have disappeared not merely from our politics, but from our memories."

Fifty cents will save a life for three days. Go see "District Skule," on Friday evening, Dec. 9th.

Important Meeting Of Tobacco Growers In Lancaster

A meeting is called by Judge Lewis L. Walker, Chairman of the Co-operative Tobacco Marketing Association, and for all of those who have signed the contract, to be held in Lancaster on Saturday, December 10th, at 2:00 P. M.

All farmers who have not signed the contract and who desire to sign should do so at once at the books will be closed on that date.

The object of this meeting is to explain the operation of the Association up to date.

Judge Walker requests that farmers who have signed the contract by all means be present at the above time.

Circuit Court.

The Garrard County term of Circuit court is still in session and quite a number of cases have been tried, the following cases having been disposed of since the last issue of the RECORD.

John L. Coldiron vs. L. & N. Railroad Co., received judgment of \$185. Mr. Coldiron received this judgment for shortage in the shipment of a car load of coal.

R. H. Watson vs. American Express Co., received judgment for \$150. for merchandise lost in transit.

Commonwealth of Kentucky vs. Reather and Howard Murphy for assault and battery. Reather was fined one cent and cost and Howard Murphy was fined \$250.00 and cost.

Same vs. Allie and Tom Murphy for malicious beating. Allie Murphy fined \$200, and cost and Tom Murphy \$100, and cost.

Same vs. Andrew Estes for malicious beating, fined \$75, and cost.

Same vs. Tom Rogers malicious shooting, fined \$50, and cost.

Same vs. Walker Hess giving cold checks, \$15, and cost.

Same vs. Wm. Jeters giving cold checks, \$17.50 and cost.

First National Bank of Aberdeen, received judgment against Mr. Floyd Curtis for suit on note.

The case of Robert Lunsford for killing Mr. Jasper was continued until next term of court, owing to some of the witnesses on both sides not being able to appear.

Associational B. Y.

P. U. Organized

An important meeting for the organization of an Associational Baptist Young People's Union was held at the Baptist Church here on Friday. This organization has for its purpose the promotion of young people's societies in the Baptist churches of South District Association. Annual conventions will be held and young people's unions organized in churches that have no such organization at present.

The program yesterday was devoted largely to organization. Forty-two delegates representing a dozen churches were present to start the work in line shape. Mr. Lyman P. Halley, State B. Y. P. U. Secretary, was present and delivered a very inspirational address at the morning session. Then informal reports of the Unions now at work were made by delegates. The noon hour was spent in a friendly circle while partaking of the delightful lunch served by the Women's Missionary Society of the Baptist church.

Officers were elected at the afternoon session and the final work of organization completed. Mr. E. T. Thompson, of Lancaster, was elected president and Mr. Gordon Doty, of the same city, was elected secretary. —Danville Messenger.

Pumpkin Seed.

The seed from the large 102½ pound pumpkin is now ready for distribution, as long as they last, to subscribers of the Central Record, who will renew their subscriptions, or for any new subscribers.

Of course there will not be enough seed to go around to all of our 2,000 subscribers, but the first ones will be served. Renew now.

Those paying accounts to Mrs. Rella Arnold Francis or to the firm of Francis-Smith are entitled to ticket on the prize given Dec. 22nd.

Hog Killing Time.

Our colored friend, Buncom Adams, is as busy as a bird dog this week killing hogs for the folks. He is well prepared to kill your hogs and will call for them and deliver them in the proper shape and the same day. Buncom sure does know his business.

95 PER CENT OF GROWERS May Be In Tobacco Pool.

Passonau Declares Growers Taking Advantage Of Opportunity To Join Association In Even Greater Numbers Than Expected.

Lexington, Ky., Dec. 1.—When the books of the Burley Tobacco Growers' Co-operative Association close December 10th, the membership will total 90 or 95 per cent of the total number of tobacco growers in the district, if the ratio of gain since Saturday is maintained, was the statement made today by Joseph Passonau, Organization Manager, who had charge of the formation of the association through the campaign for signatures. Mr. Passonau said that the membership already had reached 50,000 and was growing every day, as reports came in from the different counties of the district, in which outside growers have had the opportunity since Saturday last to sign the association contract.

"With the opening of the membership books of the association last Saturday," said Mr. Passonau, "new members have joined the association, even more extensively than had been anticipated. If the same rate of sign up contracts until the 10th, of December, the pool will undoubtedly reach the 90 per cent mark before the books are finally closed. In fact, I would not be surprised if we succeeded in getting more than 95 per cent of all Burley tobacco growers in the four states represented in the contract."

"When the pool was declared as formed on November 1th, 6, something over forty-two thousand contracts had been turned into the organization. This number has been swelled to over fifty thousand. This does not mean, however, that eight thousand names have been added since last Saturday. Reports on a considerable amount of tobacco that had been pledged prior to the 15, did not reach headquarters in time to be included in the figures represented in the report of November 16th, and is consequently included in the additional eight thousand contracts."

"We have not as yet totalled all of the tobacco represented in the contracts received since November 15th, but inasmuch as the forty-two thousand contracts counted in on that date represented 175,000,000 pounds of tobacco, if the same ratio is maintained, we probably have pledged at the present time about one hundred and ninety million pounds."

"In point of membership the Burley Tobacco Growers' Co-operative Association is the largest co-operative in the United States. In addition, when measured in terms of the percentage signed up to the Association, it is the strongest pool that ever has been organized. It is true that some of the California co-operatives now have ninety per cent pools, but this 90 per cent has been obtained after several years of successful operation. I know of no co-operative anywhere in the United States that was successful in getting an 85 per cent pool prior to its incorporation."

Ballard's Obelisk Flour At The Kentucky State Fair.

More prizes were won by Ballard's Obelisk Flour at the Kentucky State Fair than were won by all other flour combined.

Out of 29 first prizes awarded 21 winners used Ballard's Obelisk for their bread, biscuits, cakes and rolls. We believe this record has never been equaled by ANY FLOUR ANY WHERE.

BALLARD'S OBELISK FLOUR is made from the finest wheat, in a spotlessly clean mill.

Ballard's Obelisk is the best flour it is possible to make out of wheat. Try a sack today. We deliver in town. Hudson & Farnau, Sole Agents in Garrard County.

ORCHARD GROVE

Master Samuel Clark, of Lancaster spent the Thanksgiving holidays with his sister, Mrs. Gabe Huffman.

Mr. Russell Humphrey is visiting relatives in this neighborhood.

Mrs. Geo. Edington and children spent Friday and Saturday with her parents, Mr. and Mrs. Wm. Humphrey.

Mr. and Mrs. Frank Dennis and children spent Thanksgiving with Mr. and Mrs. Gabe Huffman.

Misses Virgie and Sallie Mae Humphrey were guests of Miss Josephine Huffman Sunday.

Mr. and Mrs. Ollie Lane and sons, of Mt. Hebron spent Sunday with Mr. and Mrs. Geo. Edington.

Mr. and Mrs. Gabe Huffman spent Saturday and Sunday night with her parents, Mr. and Mrs. Sam Clark, of Lancaster.

Mr. and Mrs. Price Huffman and children and Mr. and Mrs. Taylor Huffman and children spent Thanksgiving with Mr. and Mrs. J. P. Huffman.

Mrs. Taylor Huffman entertained the following guests Sunday: Mr. and Mrs. Gabe Huffman, Mr. and Mrs. Cronley Hardwick and Mr. and Mrs. Price Huffman and children.

Mr. Gabe Huffman had a very narrow escape last Wednesday, while riding one of the mules hitched to a wagon load of corn, the mule became frightened throwing Mr. Huffman beneath the loaded wagon. The front wheel ran over his left arm, which was badly bruised but not broken and had not been taken from between the wheels just at the right time his head would probably have been crushed by the rear wheel.

THE DOOR SLAMS ON HAPPINESS

Poor Blood Makes Bad Health—Then Comes The "Blues"

Once the vigor of red blood becomes sapped of its strength, the door to happiness is literally slammed. Weariness of body follows and it unfailingly engenders the depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Days seem dull and dark and difficult. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of well-being returns. Instead of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion, identified with the strength and vigor of good health. The druggists has Gude's Pepto-Mangan in both liquid and tablet form. Advertisement.

Push

When things don't go the way they should—

Or when they simply lag along,
Just stiffen up your back a bit—
Then sing a cheery little song—
And push, Push, PUSH!

When business all seems goin' bad—

Or when its on the downward trend,
There's just one thing that will bring it back—
One thing will make the bad times end—
That's push, Push, PUSH!

'Tis Push that makes this old world go—

'Tis Push that keeps it goin'—

'Tis Push that makes the wind to blow—

'Tis Push that keeps it blowin'—
Just push, Push, PUSH!

No matter what you try or do,
If you'd be sure to make it win—
You've got to get behind it with
A mighty lot of Push and then
Just push, Push, PUSH!

BURLEY GROWERS Get Charter In North Carolina.

Largest Co-operative in America Incorporated in North Carolina—
Sapiro Will Return To Kentucky About Dec. 9th.

Lexington, Ky., Dec. 1.—The Burley Tobacco Growers' Co-operative Association, controlling nearly 190,000,000 pounds of burley tobacco and with 50,000 members, the largest co-operative association ever organized in America, has been incorporated in the State of North Carolina.

News of the incorporation of the association was received from New York in a telegram to Organization Manager Joseph Passonau from Aaron Sapiro, attorney, who drew the marketing contract. The incorporation was effected at Raleigh, North Carolina, and under the laws of that State. As soon as it is made legal to do so, which is expected to be at the coming session of the general assembly, the Association will be reincorporated in Kentucky.

Mr. Sapiro will return to Kentucky December 9th., to advise in other matters of detail in connection with the permanent organization and the elections, which will be held December 12th, and which will be followed by the district meetings of delegates, which will choose directors for the twenty-two districts. These directors will handle the affairs of the 50,000 members of the association and the sale of their tobacco. Mr. Sapiro probably will remain in Kentucky until the association has named its directors and is actually ready for business.

Notice has gone out to every tobacco grower who signed the contract that the association had been "duly and legally incorporated" and that each grower would receive instructions in due course telling him where to deliver his tobacco to the association. The notice is signed by Robert W. Bingham, chairman of the organization committee, and Joseph Passonau, organization manager.

The notice, in full, follows:

Notice To Subscribers
You are hereby notified that the Burley Tobacco Growers Co-operative Association has been duly and legally incorporated, and you will receive instructions in due course, telling you where to deliver your tobacco to the Association.

Dated at Lexington, Ky., this 30th. day of November, 1921.

Robert W. Bingham, Chairman
Organization Committee.
Joseph Passonau, Organization Manager.

DAMAGE

To Stored Grains Is Threatened By Weevils.

Grain weevils, recognized by farmers as one of the serious pests of stored grain that usually gives trouble at this time of the year, must be guarded against carefully if serious damage is to be avoided, according to suggestions by Harrison Garman, entomologist at the Kentucky Agricultural Experiment Station. Mild winter weather which often prevails in Kentucky contributes toward making the insect a destructive pest and when serious outbreaks of it occur in stored grain, the farmer often is required to dispose of it sooner than he had planned in order to avoid complete loss. Wheat, rye and sometimes corn are the chief grains attacked.

Tests conducted by the station indicates that the damage done by the weevils is reduced if the storage place of the grain is kept cool all winter. In cases where heavy infestations have occurred the insects have been destroyed by opening the windows and doors of the storage place and allowing the temperature to go as low as possible. In cases where it is impossible to do this, fumigation with bisulphide of carbon should be used in order to check the destruction of the pests, according to Mr. Garman.

One teaspoonful of this material should be used for each cubic foot of space not occupied by grain, the liquid being poured into a dish or crock and placed on top of the seeds after penetration of the fumes. All openings should be closed and the room made as nearly air tight as possible. Care must be taken in using the bisulphide since the fumes are poisonous and inflammable. It is necessary to repeat the fumigation from time to time in order to destroy the insects which hatch from eggs laid before the first fumigation.

Farm And Home News From Over Kentucky

What is expected to be one of the best junior agricultural calf clubs in Kentucky is being developed in Marion county by County Agent H. J. Childress and Assistant County Agent L. C. Brewer. Members of the club will develop a purebred heifer of one of the beef breeds as their start in raising cattle.

Dairying is receiving increased attention from Crittenden county, a report from County Agent J. R. Spencer states. Several farmers in the county are planning to purchase purebred dairy animals while inquiries on dairying subjects from others indicate that this form of farm business may prove popular with farmers of the county in the future.

Work in the eradication of tuberculosis in Union county dairy cattle is progressing rapidly, a report from County Agent A. M. Allen shows. Forty farmers in the county recently were visited in the interests of the work after which 178 animals were tested for symptoms of the disease.

Interested Laurel county concerns and individuals are co-operating with County Agent J. W. Jones in a movement for more and better dairy cattle in the dairy sections of the county, according to a report.

At least 20 poultry raisers in Crittenden county are expected to conduct demonstrations during the coming year in co-operation with County Agent John R. Spencer and the College of Agriculture extension division. The demonstrations will be designed to show the best methods of housing, feeding and managing farm birds and the increased profits which result from such a system.

Two more Carroll county farmers have been enrolled in the campaign for improved livestock, according to a report of County Agent G. C. Routt. They have agreed to use nothing but purebred sires in all their breeding work.

MARKSBURY

Miss Emma Holmes, of Crab Orchard, is the guest of Miss Deane Hunter.

Mr. and Mrs. Price, of Hoyle county, have been visiting Mr. and Mrs. Mote Pollard.

A member from each group of the B. Y. P. U. carried out good programs at Rev. Skaggs' church at Paint Lick Sunday evening.

The Ladies' Working Society will meet with Mrs. A. J. Rice next Thursday at 2:00 P.M. All members are invited to be present at this important meeting.

Messrs. Ted Eugene Thompson and Gordon Doty and Misses Ida and Blanche Speake were invited to attend a social given by the B. Y. P. U. at the Mt. Hebron church.

Mrs. Mote Pollard entertained at a house party from Thursday until

Monday, the week of Thanksgiving. Her guests included Misses Emily and Mae Bourne, of West Lancaster, Mae Bell Sutton and Alice Sutton.

Rev. Lewis Thompson and son, Mr. Eugene Thompson, Messrs. Gordon Doty and Homer Rice went to Danville last Friday to assist in forming a union or an association of B. Y. P. U., under control of the churches of the S. D. A. There were eleven pastors, as well as other members present. A very enjoyable day was spent, and much enthusiasm was manifested in organizing the union.

As a result of the meeting Messrs. Ted Eugene Thompson was elected President and Gordon Doty, Secretary and Treasurer. No doubt the association will be successful under the leadership of these two worthy young men. The meeting was held at the Baptist church at Danville.

W. H. Conn, prop. of garage, Danville St., Lancaster, says: "I had trouble with my kidneys. I took Doan's Kidney Pills and found them the best medicine I could take. I had typhoid fever before that and I had more or less trouble with my kidneys. I would get spells of back-ache and was lame in my hips. I could hardly stoop over my back hurt so. I heard a great deal about Doan's Kidney Pills and made up my mind to give them a trial. It wasn't long after taking Doan's until I was rid of the trouble. Since then I have taken a few Doan's whenever I have felt my back getting weak and they have always straightened me up in good shape."

American Legion News

The biggest potatoes of the year, weighing from two to five pounds each, were served on the Foch-American Legion Special en route from Minneapolis, Minn., to the Pacific coast. The "spuds" were so big that they required an hour and a half in the baking.

Selected by L. K. Owen, superintendent of dining cars on the Northern Pacific Railroad, the biggest of the tubers was served Marshal Foch, whose amazement was evident.

Training allowances for sick and wounded ex-service men will not be reduced twenty per cent, according to C. R. Forbes, director of the Veterans Bureau, who has informed the American Legion that this move never has been considered.

Ninety per cent of the 100,000 disabled men now being trained receive \$100 a month.

Three French war brides confronted Marshal Foch when the American Legion Special stopped in St. Maries, Idaho. They were crying.

"We love America, but oh! how we are lonesome for France," they sobbed.

"Never forget France," Foch replied, "but you must love your new home and honor your husbands."

But the Marshal had to blow his nose hard.

Ex-service men of the World War who want to be first, second or third class U. S. postmasters are to be given a five per cent advance on their civil service ratings and credit for time spent in service. President Harding's executive order putting the provision into effect was recently promulgated at the instance of the American Legion.

Receipts from the entertainments given by posts of the American Legion or its Auxiliary are not taxable under the new revenue law passed by the extra session of the 67th Congress. Such receipts, even when the proceeds of the entertainments were

given for charitable purposes, were taxable under the entertainment tax of the old revenue law.

The examination of Boy Scouts in Minneapolis has been entrusted to members of the Raoul Lufberry post of the American Legion. A board appointed by the post will have charge of the examinations in sixty subjects and will make recommendations as to the awarding of merit badges.

The high school graduate with the best athletic record in Elkhorn, Wis., will receive annually an American Legion medal, gift of the local Legion post.

Fifteen cents buys a meal for needy ex-service men and families at the American Legion restaurant, Toledo. The menu includes steak or chop, potatoes, bread, butter, and coffee. The difference between the cost of the food and the price at the counter is made up by employed Legionnaires.

When Marshal Foch, now on a tour of the country with the American Legion, returns to New York Dec. 14 to sail for France on the liner, "Paris," he will have traveled 16,000 miles, visited 42 states, and stopped at 200 cities and towns. He made his 245th speech at Richmond, Va., before starting West and had received the degree of LL. D. from 21 American universities.

"If pardon is granted to Debs or others fairly convicted of treason or sedition during the time when the nation's very life was at stake, the lives of those boys who lie on the fields of France and those who lie broken in hospitals have indeed been sacrificed in vain," Hanford MacNider, commander of the American Legion, has telegraphed President Harding, requesting that "no leniency be shown those traitors who stabbed us in the back while we were giving our all to this country."

Kansas City is soon to have a municipal airport as a result of the interest in aviation aroused by the recent successful air meet, held in connection with the American Legion convention. Action is now being taken by a committee of members of the Flying Club of Kansas City to find a suitable field.

Following a series of shooting scrapes in and near Wichita, in which two men were shot to death and four others dangerously wounded, 500 members of the American Legion volunteered to aid in preserving order in case of emergency. The Legionnaires will be available for police duty immediately if the trouble with the gangsters becomes acute.

After reading all of the varied reports that are being sent out from Washington one's point of view seems to be conspicuous for its lack of a point.

The All Important Hour

The editor of the Record has the deepest interest in the success of the co-operative tobacco marketing from the beginning of the movement. This paper has had its columns open to all forms of interest that would tend to promote the success of the undertaking. The movement has now been declared a success so far as the seventy-five per cent signing the contract, but the important time is now at hand. The future of the tobacco interest and the success of the co-operative market depends upon the initial organization. The chairman of Garrard County, Judge Walker, at the instance of headquarters at Lexington has suggested eight men for delegates, four of whom may be elected to represent this county. It should be understood that it is not binding upon the people of Garrard County to vote for any of these delegates. It would have been better had the interested parties first name these proposed delegates.

A meeting is called for two o'clock, Saturday afternoon for the purpose of discussing this matter, and we ask and urge every member of the association that can possibly be present on that day to be here and discuss frankly and freely the merits of the proposed delegates and in the event that other delegates than the ones named can be found who are better suited for the position than any of the eight suggested by the chairman, such delegates ought to be agreed upon and elected. Too much importance cannot be attached to this matter. No man should be elected a delegate who has an ax to grind, or who is laying any grounds or making plans to provide himself with a job in connection

with this movement. In fact, before any member of the association casts his vote for any of these delegates that delegate ought to be required to declare that he has no selfish purpose in his ambition to serve as a delegate. If a delegate has planned to get a position with the association through which he expects to make money and serve his private ends he is not qualified to act for the best interest of the organization. Job hunters should be eliminated from any representative capacity in this organization.

We suggest this as bringing out the importance of the movement here for Saturday. Garrard County has four votes in the selection of one of the directors in the organization. In other words, it has the majority vote in the district. Garrard County raises the majority of the tobacco and is more interested than the other counties of the district and the editor of this paper feels that we ought to discuss the matter freely in our meeting Saturday as whether Garrard County should ask for this director.

It is of the highest importance that each and every member of the association who can possibly be present on Saturday to do so and to make it a part of his business to see that his neighbor and his neighbor's neighbor, who is a member, are also present at this meeting Saturday.

As The Editor Sees It.

Prosperity seems along time in returning. But don't let a little thing like that worry you. The longer the delay the more you will appreciate it when it does arrive.

In the meantime none of us are suffering very much. In fact, we are fairly well off, considering the chaotic condition of the rest of the world.

Just keep a grip on your optimism and don't let your energy lag behind. No quitter ever succeeded in getting rich yet.

It may ease your mind to let out a few choice cuss words when you have to jump lively to escape the wheels of a speeding automobile.

But cussing doesn't really do any good. The epithets you hurl at the speeder never reach him—he is too far away.

A better plan would be to speak to him pleasantly the next time you see him and point out the danger he forces upon other people by his thoughtlessness.

If twenty-five or fifty people would speak rationally to such

a person even his feeble and irresponsible brain might in time be brought to see the light.

Even an imbecile likes sugar.

A slow decline is discernable in the price of labor in various parts of the country.

If this continues it will in time bring a decline in the price of commodities, as the one will necessarily follow the other through the medium of competition in trade.

But the laboring man should remember that there can be no material reduction in any line until the cost of labor declines, for labor enters into the production of everything we use or consume.

Good old Santa Clause will soon be shaking hands with us again. He never passes this town by in his annual trips—and we trust he never passes by any person in the town or community.

But to be sure that every one will be remembered on Christmas day it would be well for us to look around a bit. There may be some one who has been hit more than we realize by the business depression under which we have been laboring.

If there is such a person, or such a family, our greatest joy should be in remembering those who are without the means to remember themselves.

Repeat the golden rule for inspiration.

High up in the air there is a powerful current blowing from Japan toward this country which, with the aid of a motor, would drive an aeroplane from that country to our western coast in about fifteen hours. Eddie Rickenbacker, king of American aces, is authority for this statement.

Consider the possibilities. Japan could assemble a fleet of fifty or a hundred thousand and bombing planes and start them our way. Within fifteen hours they would be at San Francisco. A few hours later they could be hovering over every city in the United States, ready to blot them out dropping tons of high explosives.

Is this possibility worth a passing thought?

Wouldn't it be well to worry less over obsolete battleships and give more attention to the greater menace?

Assigning United States marines to guard registered mail pouches was an excellent move. Your money is much safer in transit now. By the time the marines have killed off a few more bandits they may conclude that the government poker has a hot end.

Little Thoughts

On Big Topics

Will hell break loose again? We don't know. Neither do you. Neither do those dignified gentlemen in Washington. Nobody knows.

Naval constructions may be limited, warships may be scrapped or sold to Henry Ford, armies may be reduced, and all sorts of covenants may be signed by the governments of Christendom.

But even such drastic measures as these will be no guarantee against future wars.

The money kings have not spoken.

As long as there is money to be made out of war there will be more wars, and everybody knows that war affords the golden opportunity for profiteering on a gigantic scale.

The ship builders, the munitions plants and the manufacturers of war supplies of every nature all make huge profits from war.

As an example, look around a bit. Note the thousands of

additions to the army of the sudden rich. Look at the men who count their wealth in millions who before the war were only moderately well off.

Where did all of this sudden wealth come from? From war.

Do those birds want more war profits? They do.

War profiteers are singing softly at present because the plain people of the world are aroused. It is not good policy for them to buck public opinion just now. A waiting game promises better results.

They know from long experience that the public soon forgets. It has forgotten in the past, and it will forget again.

Then the man who fattens on war will raise his head and make another noise. That noise will not be a demand for peace.

How can we prevent future wars among civilized people?

Very simple. There is an effective way of putting an end to all wars for all time to come.

Instead of sending young men—poor men—to do the most of the fighting, let the governments of the world enter into an iron bound covenant whereby the rich and the powerful—the heads of the big banking institutions, the owners and directors of shipping plants, officers and directors of munition plants, steel companies and war manufacturing concerns generally—every man who makes money out of the war—let these be the first to be required to shoulder a gun and trudge forth as buck privates and meet the first shock of battle.

Heresy? Possibly so, from the modern point of view.

Unheard of? Certainly not. Consult your history.

In earlier ages, when the higher a man's station the redder the blood that flowed in his veins, the great of the nations marched at the head of their armies and were the first to meet the foe. They did not sit back in swivel chairs and send the less fortunate forth to do or die.

Have you ever traveled in a land of half civilized people? Or are you familiar with the history of our own country when the Indians ruled the plains? If so you know that the savages of standing in the tribes were in the thick of the fight and setting an example to their followers. When the war drums sounded wealth became of secondary consideration to them. Their only desire then was to fight—and fight they did.

The blood of the mighty was red in those days.

Now don't laugh—but can you imagine the Rockfellers and the Morgans and the other money kings doing that? Wouldn't it jar you to see such a sight? But you won't.

When The

Farmer Suffers.

The price of farm products are down, close to the 1914 level.

That would be fine if other commodities were down in proportion.

But high wages still prevail in the cities in all lines. This means that the manufacturer and wholesaler must continue to charge the country merchant high prices for his goods.

The country merchant in turn must charge the farmer in proportion to what he himself pays to the manufacturer or wholesaler.

Very simple and easily understood, but anything but satisfactory to the farmer.

In Memory.

Of Mrs. Dolly Brown, Miss Amanda Anderson And Mrs. Sallie Dailey.

Bravely through life's struggle each have borne their part with undaunted courage. A cheerful word and a smile for all, their lives a benediction. They have reached the goal where Christ has said "well done ye blessed of my Father, my faithful ones."

Then let us look on the bright side. For sorrow will come to us all. But God in His beautiful wisdom Gave the stars and the light of His word.

By Mrs. Fannie M. Farra.

Resolutions

The following resolutions on the death of Miss Amanda Anderson, who was a member of the Woman's Club, have been made:

Whereas, It has pleased God in His infinite wisdom to remove from our midst Miss Amanda Anderson, who passed to eternal life November 23rd, 1921, and whose beautiful character was an inspiration to all associated with her.

Be it resolved, That in the death of Miss Amanda the club sustains a very real loss and realizes her place will be difficult to fill; also that we express our deepest sympathy to the bereaved family in this great sorrow.

Be it further resolved: That a copy of these resolutions be sent to her family and a copy be spread upon the minutes of the club.

Resolutions

Hall of Franklin Lodge, No. 7,
I. O. O. F., Lancaster, Ky.,
December 5, 1921.

WHEREAS:—God in His infinite wisdom has removed from our ranks Bro. Ernest Hibbard, one of our best beloved and most faithful members, therefore,

Be IT RESOLVED: That it is with deepest sorrow that we bow to the inestimable, being solaced only by the knowledge that He "doeth all things well."

That in the loss of Bro. Hibbard this lodge loses a member whose place it will be hard to fill, one who was ever at his post of duty, ready and willing to do any and all things which might be asked of him, and one who was loved and esteemed by every member.

That we extend to the aged mother and the bereaved wife and children our sincere sympathy, and assure them that we share in their great bereavement, and bid them place their trust in Him who has promised to be a father to the fatherless and Who has promised that He will never see the righteous forsaken.

That we drap our charter in

mourning and that the members of the order wear the emblem of mourning for a period of thirty days. That after being read aloud in open lodge, a copy of these resolutions be spread at large upon the minutes of the order and a copy be sent to the bereaved family.

Order Eastern Star Garrard Chapter

Dec. 6th, 1921.

Whereas: It has pleased the Almighty to remove from our midst, by death our esteemed sister, Amanda Anderson, who occupied a prominent station in this order.

Be it Resolved, That in the death of Sister Anderson, this Order has sustained the loss of a faithful member, a true friend and sister, ever willing and anxious to further the interests of the Chapter;

That we offer to her bereaved family, over whom sorrow has hung her sable mantle, our heartfelt condolence and pray that Infinite Goodness may bring speedy relief to their hearts and inspire them with the consolation that hope in futurity and faith in God give even in the shadow of the tomb.

Be it further, resolved, That a copy of these resolutions be sent to her family and a copy be spread upon the minutes of the Eastern Stars Chapter.

NORTH CAROLINA GROWERS UNITED

State Signs Up Necessary Amount

To Make Its Tobacco Marketing Association A Success.

North Carolina tobacco growers have signed up the minimum agreed upon as necessary to the success of their co-operative marketing association, according to reports received at the office of the Hurley Tobacco Growers' Co-operative Association in Lexington, and at the same time came news that the price of tobacco had dropped considerably from previous figures.

The signing up by North Carolina was featured by the endorsement of the co-operative plan by J. M. Gallows, probably the largest grower of tobacco in the world, who agreed to deliver 650,000 pounds. On his farm there is grown by tenants probably a million and a quarter pounds of tobacco.

The signing up of North Carolina assures the handling of the 1922 crop by the co-operative marketing association, which is a three-state affair, Virginia and South Carolina being leagued with North Carolina in the association.

Word from the Raleigh headquarters is that letters and telegrams coming from all parts of the tobacco section of the state are being received, asking for contracts and that speakers be sent to explain the plan to the growers who have not yet signed.

It was said, in the reports received here, that business men and bankers were impressed by the way farmers had shown their confidence in the new plan and were ready to give it their assistance.

Tanlac will overcome that run-down debilitated condition and make you feel just like your old self again. It.

Hog Raisers.

It pays to use Moorman's Mineral Mixture for hogs. We have maintained its high quality but now selling it at a lower price than we did way back before the war in 1914.

You can get 500 lb. at 6 cents per pound; 1,000 lb. lots at 5 1/2 cents per pound. This is the Moorman's Mineral Mixture for hogs that the farmers of Boyle, Garrard, Lincoln and Mercer counties ordered through Mr. A. M. Elder for many years before he was promoted by the Moorman Manufacturing Co. Please be certain to look for name Moorman on the order you are asked to sign.

We have more than three hundred customers for me to look after. If you need Moorman's before I see you call DEXTER HALL, Stanford, Ky. Representative for Moorman Manufacturing Co. 12-8-21 pd.

PLANT DISEASES TAKE HUGE TOLL

Farmer Suffers Loss of Income and Consumer Compelled to Pay Higher Prices.

CONTROL OF PESTS IS URGED

Can Be Brought About Only Through Painstaking Technical Research, Followed by Adoption of Remedies by Farmers.

(Prepared by the United States Department of Agriculture)

When a plant disease or some other crop pest destroys an important crop throughout a large area, it is easy to see how dangerous these pests are both to agriculture and to the country. The farmer whose crop is destroyed suffers through loss of his income; the consumer often through abnormally increased cost of his food supply. Occasionally, as in 1916, when the wheat crop of the United States and Canada was reduced approximately 25,000,000 bushels by black stem rust after the entire expense involved in its production, except that of harvesting and threshing, had been incurred, the result is so serious as to endanger the stability of banks and of business generally in the devastated region and even, as in that case, to threaten the future of nations through impairment of food supply when needed for winning the great war.

Take Heavy Toll on Crops.

But spectacular and widespread destruction of crops is by no means the only harm worked by plant diseases. Every season and in substantially every important producing section they take heavy toll on crop production. Their existence without control constitutes one of the chief hazards which the farmer encounters, increasing his cost of production and ultimately the price which consumers must pay.

It has been difficult to determine even approximately the amount of damage done by plant diseases, but very careful estimates recently made by the pathologists of the state experiment stations and the Department of Agriculture indicate that in 1919 the production of ten of the important cereal, fruit and vegetable crops was reduced more than \$500,000,000 bushels by plant diseases. This estimate does not include damage due to insects nor to adverse climatic conditions.

When it is remembered that substantially equal expenditures for labor and other items up to the point of

Farmers Stop Guessing On Best Corn Varieties.

Farmers in Fulton, Carlisle, Graves, Ballard and McCracken counties who co-operated with their county agents and the extension division of the College of Agriculture during the past year in conducting corn variety tests have eliminated much of the guessing which usually accompanies the selection of the best variety of corn for a given section, according to a report to Ralph Kenney, crops extension specialist from the college. The tests will be continued for several years in an effort to determine definitely which varieties are best suited to different sections of Kentucky.

In the 21 variety tests which the farmers conducted this year, *Pride of Saline* yielded an average of 40.8 bushels an acre, Boone County White an average of 37.6 bushels an acre, *Reld's Yellow Dent* an average of 34.9 bushels an acre, Iowa Silvermine an average of 32.3 bushels an acre and *Hickory King* an average of 29 bushels an acre. These yields constitute the ones given in the first reports received from 27 counties in which variety tests were conducted during the past summer. In most tests several local varieties were included in the work and in several cases gave higher yields than any of the five varieties listed.

When you get tired of reading about the arms meet at Washington you might try making them meet at home.

Occasionally we hear of some fellow who never says an unkind word to his wife. But that isn't strange. It requires inordinate courage in some cases.

Logan Farmers Organize Sixth Sire Association.

Organization of co-operative purebred sire associations among Kentucky dairymen is making rapid progress, the sixth association for the State recently having been formed in Logan county, according to E. M. Prewitt, dairy extension specialist from the College of Agriculture. The association, which was organized under the direction of County Agent W. R. Whitlow and the college dairy extension division, has 30 members who are owners of approximately 100 cows.

As the first step in the work of the organization, members of the new association will purchase purebred Jersey sires having as their mothers cows that produced more

than 400 pounds of butterfat in one year. By means of the co-operative plan, dairymen in the county will be able to use these merit sires in their dairy herds at small cost. Considerable increase in the milk and butterfat production of the herds during the next few years is expected to follow the adoption of the co-operative sire plan. Two members of the association have ordered five bred heifers as a part of their plans to place the animals in their herds on a registered basis.

Anderson

On Nov. 19th, 1921, Mr. T. A. Anderson passed to his Eternal Home. His death was momentarily expected for several months. He had been a long sufferer of heart trouble.

He is survived by his wife and seven children. He first married Miss Lucy Lane. To this union was born six children, three of whom are living, Willie, Clayton and Dewey Anderson.

In 1910 he was married to Mrs. Tilda Deboard. To this union was born five children, four of whom are living, Carl, Johnie, Leslie and Mary Willard Anderson. He was a kind and beloved husband and father.

After short funeral services at the grave he was laid to rest in the old family burying ground to await the resurrection morn.

Sleep on beloved, sleep on.
And take thy rest.
Lay down thy head
Upon the Savior's breast.
We loved thee well,
But Jesus loves thee best;
And He has called him home to rest.

Shelled Corn Is No Advantage To Steers

Lexington, Ky.—Feeding tests conducted by the Kentucky Agricultural Experiment Station for the purpose of comparing the value of broken ear and shelled corn in fattening steers indicate that shelled corn has no advantages over broken ear corn in producing beef when stage is fed, according to results of the trials given in a circular which has just been issued by the station. One lot of ten steers each, which were fed for 140 days, made an average daily gain of 1.95 pounds on a ration containing shelled corn, while a similar lot of steers, fed for the same length of time on a ration containing broken ear corn instead of shelled corn, made an average daily gain of 1.89 pounds, according to the results.

The object of the tests was to obtain definite information on the relative feeding value of broken ear and shelled corn for fattening steers where corn silage is used in the ration and corn allowed during the latter part of the feeding period. For some time, many cattle feeders of the State have believed that shelled corn produced larger and more economical gains than did ear corn under these conditions, according to the circular. Some steer feeders in Kentucky sell their ear corn and buy shelled corn to replace it, paying five cents a bushel for the shelling in addition to hauling the corn to and from the elevator, the circular states.

Each steer fed shelled corn consumed an average of 10.11 pounds of corn during the last 80 days of the feeding trial and 3.45 pounds of cottonseed meal, 35.37 pounds of silage and .47 pounds of straw during each day of the test. Those fed the broken ear corn each consumed an average of 12.41 pounds of corn during the last 80 days of the experiment and 3.45 pounds of cotton seed meal, 33.63 pounds of silage and .35 pounds of straw during each day of the trial.

The steers which received the shelled corn made their gains at a cost of \$14.23 a hundred pounds while those fed the broken corn put on beef at a cost of \$14.21 a hundred pounds. Detailed results of the tests are given in the circular which is No. 26. It is being distributed freely interested persons.

Lack Of Plant Food Reduces Crop Yields

Lack of available plant food, which is the greatest single factor responsible for the low average crop yields of Kentucky farms, can be remedied best by the use of farm manure and commercial phosphate coupled with the growing of legumes and the practice at the College of Agriculture. Supplying the necessary plant food should increase the State's present average corn yield of 26 bushels an acre to 40 or 45 bushels an acre and the average wheat yield from 13 bushels an acre to 20 or more bushels, they say.

"Either nitrogen or phosphorus, or both, are the limiting factors in determining yields on practically every farm in Kentucky," R. E. Stephenson, a member of the college agronomy department said. "Phosphorus usually must be bought in the form of acid phosphate, basic slag or rock phosphate but it is seldom profitable to purchase nitrogen for use on general field crops because of its cost. As long as the nitrogen

deficiency is not made good, however, the use of phosphate cannot be as profitable as it otherwise should be. In other words, phosphorus will not give its best results until the nitrogen is provided with it.

"Since manure is relatively rich in nitrogen, it is an excellent form of fertilizer to use with phosphate which every farmer can purchase on an economical basis. Manure and phosphate, when used together on soils needing both phosphorus and nitrogen, will give greater returns than when either is used alone.

"Aside from its fertility value, manure has other qualities which give it an important place in improving soils. Chief among these is its ability to improve the physical qualities of soils. This can be noticed in the amount of tillage necessary to put a field in condition for planting before and after it has been wellmanured. The organic matter which it supplies loosens the tight soil and gives it the desired granular structure. In addition to this manure stimulates the activity of soil bacteria and aids them in making plant food available.

Why Not a Bank Book for Christmas?

Can you conceive of anything your son or daughter would like better than to receive a nice new bank book on Christmas morning, and realize that he or she is suddenly and unexpectedly possessed of a bank account—"just like grown-ups?"

Think of the incentive it would be to the young one to save, and accumulate, and watch it grow.

Think, also, of the valuable lesson of life it would be to a child, or a young man, or a girl.

Think of all of these things—then make the deposit and get the book.

BURLEY MARKET

Suffers Slump At Horse Cave.

Hart County Growers Refuse To Accept Offer For Crops And Seek Membership In New Co-operative.

Lexington, Ky., Dec. 2.—The bottom has dropped out of the burley tobacco market at Horse Cave, according to information received at the Burley Tobacco Growers' Co-operative Association headquarters on South Broadway from a Hart county member of the association. A warehouse unfriendly to the association has been open and selling burley tobacco for a few days. Today prices dropped generally about ten cents a pound.

Many of the growers refused to accept the prices offered and hauled their tobacco back to the barns. Others stored it in Horse Cave and applied membership in the Association, leaving their tobacco stored until the Association is ready to receive it.

Burley tobacco growers, members of the new Co-operative Marketing Association, are going forward with their plans for the election of district delegates December 12th, and so far as reported the county organizations have named some of their strongest men. Organization Manager Joseph Passonneau said today.

"Judging from the type of men nominated for delegates in the various counties," Mr. Passonneau said, "the men best fitted for leadership in the organization are likely to be selected as delegates to the district meetings. This, of course, will result in the selection of the growers' best men for directors. The members of the organization have the choice of their own preference for delegates, if the names on the ticket in each county do not meet with their approval, blank spaces being left to write in their preferences in such cases, but so far as we have heard there has been very little dissatisfaction with the nomination of the committees."

"Ballots will be in the hands of every grower in ample time to permit him to cast his vote December 12, before 4 o'clock in the afternoon, whether he casts that ballot in person or by mail."

Everett McClure, of Aurora, ind., chairman of the Burley Tobacco Growers' Co-operative Association for Dearborn County, Indiana, in notices of the re-opening of the books of the association to give growers an opportunity to sign up their crops, said that, "there is every reason to believe that our tobacco will be marketed quickly and on very favorable terms."

Information received at burley headquarters, 620-624 South Broadway, indicates that the growers of Dearborn county are going out to make that county's pool 100 per cent strong.

A delegation of Bourbon county growers, who had a part in the signing up of more than 95 per cent of Bourbon's crop to the association, will go into Ohio Monday to aid in Brown, Adams and Clermont counties next week. Another delegation from Bourbon, Fayette and other counties will attend the meeting which Judge Robert R. Bingham is to address at Richmond Monday next and probably fifteen or twenty will remain in the county throughout the week, aiding the Madison county workers in the drive in that county.

Station Winnings Are Regarded As Advance

Lexington, Ky., Winnings of the Kentucky Agricultural Experiment Station at the recent International Livestock Exposition represent one of the major accomplishments of the institution in its program for improved livestock in the State, according to E. S. Good, head of the animal husbandry department.

More than 20 awards, including the championship on a Hampshire wether and the first prize on a pen of three junior yearling Berkshire barrows, all of which were won in large classes containing animals from the most prominent professional breeders and exhibitors from all parts of the United States, are regarded as a distinct accomplishment by station animal husbandrymen.

The pen of three Berkshire barrows which were awarded the blue ribbon is a product of the station work in breeding and feeding swine, all three of them having been bred and raised on the station farm. In winning the first prize the animals defeated those from some of the most successful exhibitors and breeders in the United States.

The Hampshire wether, which was

awarded the championship for wethers of his breed, was declared to be one of the most evenly covered and best fitted Hampshires at the Exposition by livestock authorities who viewed him.

Among the prizes captured by livestock from the station farm were the following ones:

Eighth on senior yearling Short-horn steers, third and fourth on junior yearling Berkshire barrows, first on a pen of three junior yearling Berkshire barrows, second and sixth on senior Berkshire pigs, third and sixth on junior Berkshire pigs, second on a pen of senior Berkshire pigs, second and seventh on the offspring of one sire, first, fifth, eighth and ninth yearling Hampshire wethers, fourth and eighth on Hampshire lambs, third on a pen of three Hampshire lambs, champion Hampshire wether, seventh on Cheviot wether and third in the mutton improvement class.
